

**EBSHK awarded “Wastewi\$e Certificate” and “Energywi\$e Certificate”  
by Hong Kong Green Organisation Certification**

**Hong Kong, June 4, 2020** - Everbright Sun Hung Kai Company Limited (“Everbright Sun Hung Kai”, “EBSHK” or the “Company”) is awarded “Wastewi\$e Certificate” and “Energywi\$e Certificate” by Hong Kong Green Organisation Certification (“HKGOC”) in recognition of its efforts and achievements in waste reduction and energy efficiency. As a leading wealth management institution with a foundation in Hong Kong for more than 50 years, these two certifications from the professional institutions, following the two Platinum Awards received in the “Charter on External Lighting” launched by the Environment Bureau last year, highlight EBSHK’s continued excellence in building a green working environment and environmental protection.

EBSHK has also participated in the “Earth Hour Campaign” organized by the World Wide Fund for Nature Hong Kong for three years in a row. In the evening of March 28, 2020, the Company switched off all non-essential lights in its office and branches as well as shopfront signage and video wall at branches for an hour at 8:30pm, not only support protecting the environment in action but also raising colleagues’ awareness of environmental protection and energy conservation.

The “Wastewi\$e Certificate” praises the Company’s dedicated efforts in waste avoidance and reduction measures, collection and recycling of recyclable materials, as well as recycled products purchase, while the “Energywi\$e Certificate” honors the Company’s achievements in energy efficiency of lighting, air conditioning and electrical installations.

The HKGOC is led by the Environmental Protection Department alongside the Environmental Campaign Committee and nine green and business organizations, whose aim is to benchmark organizations with substantial achievements in green management to encourage participants to adopt environmental practices in different aspects and to recognize their efforts and commitments to the environment. It is a prestigious certification scheme with high credibility that encourages participants to strive for self-improvement in specific environmental aspects.
