

At Everbright Securities International, we serve with professionalism and integrity. More than a claim, this describes the way we do business. As a leading financial services institution and an international business platform of Everbright Securities Company Limited (SSE: 601788, HKEX: 6178), Everbright Securities International offers a full-fledged financial platform that provides excellent world-class financial products and superior solutions for our clients. With a solid foundation and history of excellence since 1969, we operate five key businesses, Wealth Management, Corporate Finance & Capital Markets, Institutional Business, Asset Management, and Investment & Financing. With offices established in Hong Kong and Macau, EBSI provides all-round financial services to individuals, corporations and institutions.

Our all rounded product and service suite, and our solid track record of delivering a steady return on equity while being committed to staff development, present enormous prospects for talents.

Now an exciting opportunity has arisen for a high-calibre professional to join our dynamic team for a rewarding career:

Assistant Vice President, Business Analysis (Trading Systems)

Ref: AVPBA/IT/IN

Responsibilities

- Responsible for business analysis and solution design across trading-related applications and new product initiatives, including requirement study & analysis, design, testing, quality assurance, documentation, and project management activities
- Provide ongoing support and enhancement for trading systems on institutional trading, strategy trading, low-latency trading, and U.S. options
- Work closely with vendors and relevant parties to ensure timely delivery of projects
- Ensure compliance with regulatory requirements and internal IT governance policies
- Monitor project progress, manage risks, and provide solutions to issues encountered
- Conduct system testing, quality assurance and post-release monitoring to ensure performance and reliability
- Prepare bilingual (Chinese/English) documentation for internal and regulatory audiences
- Perform any other duties as assigned

Requirements

- Bachelor's Degree in Finance, Computer Science, Information Systems, or related discipline
- 5 years or above experience in financial services or trading system projects, of which at least 2 years' hands-on experience in business analysis for trading systems
- With experience in institutional trading, strategy trading, low-latency trading, or U.S. options is highly preferred
- Strong understanding of financial products (equities, futures, options, funds, OTC structure product)
- Knowledge of trading workflows, market operations, and regulatory requirements
- Excellent analytical, problem-solving, and documentation skills
- Strong communication skills in English, Mandarin, and Cantonese
